

Peter's Zemi

ラフ ピ-タ-

I am interested in many things, but especially history, literature and music. Here are pictures of some of the great people I enjoy learning about. Can you recognize any of them?

Don't worry if you can't, because they are not the only ones we can study together!

In my zemi, students can study a wide range of subjects and people from many different countries, including Japan, of course.

BUT, this zemi will be in English, so you will probably need a TOEIC score of about 350 points if you want to understand what is going on. Also, you will need to like speaking in English!

If you would like more information, please come and talk with me in room B501.

Remember, though,
英語だけお願いします!
